

What's in it for me?

Fertcare® and Accu-Spread®

Fertcare® accreditation is available to everyone involved in the fertiliser industry. We ask you to encourage all employees to attain Fertcare® accreditation.

AFSA members receive \$70 discount per Fertcare accreditation (Level A, B and C)

Fertcare® Level A is the responsibility of AFSA to manage and develop.

Fertcare® Levels B and C are the responsibility of Fertilizer Australia.

AFSA is instigating a transition to a contemporary on-line learning platform for Level A. This will allow members and their staff to attain level A accreditation without the need to take time away from the workplace. AFSA is aiming to launch this in the first half of 2021.

Accu-Spread® is a core component of Fertcare® it involves the independent testing and accreditation of fertiliser spreading equipment for accuracy and evenness of spreading.

Each accreditation is undertaken by contracted testing officers, who will charge you directly – however **AFSA members will receive \$350 discount per machine.**

Kiri Align

Kiri Align is a cloud-based safety and compliance management platform, aimed at pro-actively helping you and your business to be safety compliant

- ✓ **AFSA members have free access** to Kiri Align Safety Aware until Jan 30th 2021
- ✓ From Feb 1st 2021 members will receive access to the top tier of Kiri Align, Safety Aware at a 50% discount. (Safety Aware retail price is \$40 per user per month. This represents a **saving of AUD\$240 per year per user for AFSA members.**)
- ✓ There is a free-for-life tier available, which is still valuable but has very limited features

AFSA Induction Package

AFSA are developing an on-line induction package so AFSA members can provide certification for all employees that demonstrates the training, understanding and knowledge required by staff working in a dangerous workplace.

AFSA is aiming to launch this platform in early 2021 and it **will only be available to AFSA members**

Industry Training

Is made available to members throughout the year, either free or at significant discount.

Australian Fertiliser Services Association
